

Professional Training Opportunities

*A Briefing Paper from the Scottish Community Diet Project
February 2004*

An increasing number of Scottish Universities and Colleges are offering courses in food and nutrition to meet the increasing demand for a qualified work force to play varied roles in helping to improve Scotland's diet. The following is just a flavour of what exists, but watch out for more details about other courses in future editions of Fare Choice.

University of Abertay Dundee runs a number of food, nutrition and consumer courses. To find out more about new and existing courses at both undergraduate and postgraduate level, please visit the university website at: www.abertay.ac.uk
